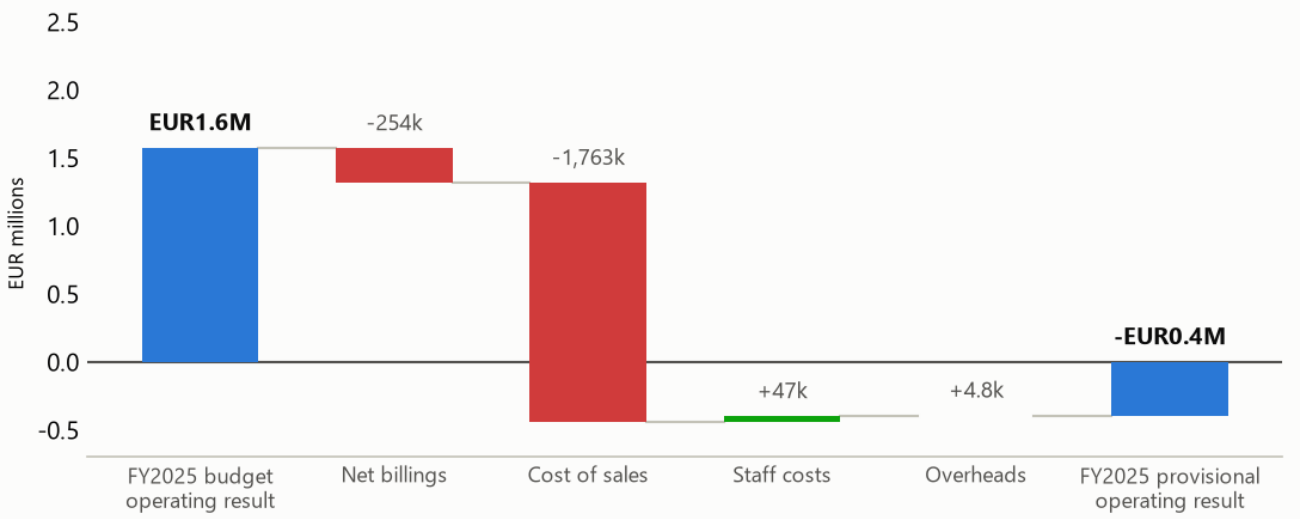
Brand Events: FY2025 provisional review

As of 30 Jun 2026. Synthetic case study. Provisional estimates for missing source cells; Brand Events Nov-2025 billings use a budget placeholder pending source verification. DRAFT.

NET BILLINGS	GROSS MARGIN	OPERATING RESULT
EUR47.4M	**EUR7.0M**	**-EUR0.4M**
-254k vs budget	-2,017k vs budget	-1,965k vs budget

Brand Events: FY2025 operating result, budget to provisional

Provisional scenario. Green favorable; red adverse. Zero baseline shown. Nov-2025 revenue held at budget pending correction of a suspected data entry error.



What drove it

Payroll ran -30k vs budget: headcount effect -26k (average 54.6 FTE vs 55.0 planned) and rate effect -4.5k (arithmetic residual, not a verified cause). Net billings ran -254k vs budget (excluding the month pending data correction): volume +1,494k (146 projects vs 141 planned) and price/mix -1,748k. Both splits reconcile exactly to the reported variances.

Data note: 2025-11 is excluded from the revenue split. The ops system shows normal activity (17 projects vs 17 planned). This supports source verification; it does not confirm the amount.

Historical material variances (FY2025)

Period	Line	EUR	%	F/U	Driver
25/04..25/06	Cost of sales	+1,640k	+14%	U	Scope expansion raised production costs; partial recovery only. (business note N11, N13)
25/07	Net billings	+247k	+7%	F	A client brought part of its September roadshow forward into July. (analyst input, manual)

Follow-ups

- BU manager: review project recovery and margin controls with group FP&A; agree an action plan for the annual operating loss.
- Verify the Nov-2025 revenue entry at source: the ratio triggers review while the ops system shows normal project activity. Verify the invoice source; the budget placeholder is unapproved.

Q3 2026 outlook (Jul 2026 / Aug 2026 / Sep 2026)

Net billings EUR10,682k (+8.1% vs the same quarter last year), gross margin EUR2,681k (+29.8%), operating result EUR812k, 30.3% of gross margin. Unresolved effects remain in the forecast base. See sensitivities in the forecast report.

DRAFT. EURk forecasts rounded; rate and price/mix are arithmetic residuals. Full history and assumptions: variance and forecast reports.
